Auterion × Airlogix

— SPECIFICATIONS

Anubis

Payload
up to 40 kg

Max Flight Range
up to 700 km

Tactical Range
up to 1500 km

Speed
198 Km/h

Flight Time
up to 90 min

MTOW
75 kg

- ➔ Modular warhead system with CFRP fuselage designed for heavy payloads
- ➔ Resilience in contested zones via GNSS-denied/Visual Navigation and Edge ATR
- ➔ Dual-band DTC Datalink and Starlink integration for (BLOS) control
- ➔ Solid rocket booster launch capability for rapid deployment from multi-use pads

Auterion × Airlogix

— SPECIFICATIONS

Seth-X

Payload **up to 3.2 kg**	Range **up to 105 km**	Max Operation **1000 m**
Speed **108 Km/h**	Flight Time **up to 65 min**	MTOW **14 kg**

- ➔ Quick-change modular system for rapid swapping of payload configurations
- ➔ Advanced terminal guidance and Visual Navigation in RF/GPS jammed areas
- ➔ High-resilience DTC Datalink for secure HD video and long-range telemetry
- ➔ Deployment via Launch Containers for safe and individual system starts
